

```
/*  
program name:time.c  
*/  
#include<stdio.h>  
int main ()  
{  
int tm,h,m;  
tm=h=m=0;  
printf("Enter the value of tm ");  
scanf("%d",&tm);  
h=tm/60;  
m=tm%60;  
printf("Time is %dhrs and %d mins",h,m);  
}
```

OUTPUT:

```
Enter the value of tm 135  
Time is 2hrs and 15 mins  
-----  
Process exited after 6.298 seconds with return value 24  
Press any key to continue . . .
